LITTLE TRADE ACTIVITY

THE FEW WALL STREET INFLU-ENCES NEGATIVE IN CHARACTER.

Indications Are for a Less Unfavorable Bank Statement Than Was Expected-The Local Markets.

At New York yesterday money on call was firm at 31/207 per cent; last loan, 31/2

Prime mercantile paper, 5@51/2 per cent. Sterling exchange was soft, with actual business in bankers' bills at \$4.80% for demand and \$4.82 for sixty days; posted rates, \$4.83\\@4.87; commercial bills, \$4.81\\@4.81\. ver, 60c; Mexican dollars, 47%c. Bar silver at London was 27%d per ounce. Whatever significance attached to yesterand in good request. The bean market is weaker, with stocks in hand large. Provisions day's stock market was of negative character. Trading in the aggregate was on a small scale, and even at that was congested in a few of the specialties. Third-avenue continued to absorb a large share of attention and was the only stock on the list with any considerable range in the price fluctuations. After an early decline this stock moved upward over 5 points and closed with a net gain of 21/2. Sugar was

active, but showed a comparatively narrow

range and ended the day with a small

net gain. People's Gas more than retrieved

an early decline, and Pacific Mail was not-

ably weak. Otherwise the dealings were

small, price fluctuations narrow and the

list of stocks dealt in a short one. That

short of being as weak as was feared. The

New York subtreasury made a small con-

the banks on the routine transactions be-

tween them. This is the first time this has

happened in over three weeks, and brings

down the losses by the banks for the week

on subtreasury operations to \$4,307,000, com-

pared with \$6,860,000 last week. Yesterday's

gain by the banks is due to the disburse-

\$750,000, compared with \$2,500,000 last week

Allowing for the movement by registered

pared with nearly \$10,000,000 last week. The

York exchange at Chicago is said to be due

to the transfer of funds to liquidate loans

contracted by Western banks for buying

government bonds in New York. These

doubtful elements in the outlook somewhat

modified the conviction of professional

traders that the surplus reserves of the

banks are certain to be wiped out to-day.

Money on call was in good supply for most

palpable manipulation, the rate quickly

it is certain to be small. The impression is

general, however, that to-day's statement

will show the low-water mark for reserves.

yesterday as for some days past and on Commis-

sion row trade was quiet, owing to the cold

weather making it unsafe to ship perishable

freights, such as apples and potatoes. The luli,

however, will be but temporary, so near at hand

is spring. In prices there were no changes call-

ing for special mention. The consumption of

coffees, it is said, was never greater than at the

present time, and prices are firmer. Sugars con-

WHEAT PRICE WAS RAISED THREE-QUARTERS OF A CENT.

Corn a Shade Up and Oats an Eighth Higher-Provisions Were Very Firm in an Active Market.

CHICAGO, March 16 .- The cold wave sent wheat prices up to-day almost as fast as the mercury went down, May closing at an advance of %c. Reports of damage to the unprotected wheat crop were the main factor in a general covering movement. Corn was weak at times but closed at a shade advance. Oats also closed a shade higher. Provisions were strong all day, closing from 5c to 171/2c higher. Opening quotations for May wheat showed an advance of 3/614c over vesterday's closing price, May starting at 66%@67c. Traders who sold yesterday anticipating another weak Friday opening on account of heavy Argentine receipts were disagreeably surprised by the figures from that country, which showed shipments of 700,000 bu less than last week, and made haste to get under cover. Overshadowing everything else in influence on the market, however, was the reports of extensive damage to winter wheat caused by the present bitter cold wave. It was known that the Western wheat fields are practically bare of snow protection, and the rapidly sinking thermometer brought conviction to shorts that the damage reports were not exaggerated. The opening advances showed sufficient profit to some holders and realizing caused a temporary reaction to 66% @66%c for May, but inside of fifteen minutes after the opening the market began jumping with a vigorous demand, the advance not being checked until May had reached 674/267%c. By that time the edge of the demand had worn off and a tendency to take profits caused a slight setback for a time, selling being increased time. The market gradually became exceedingly dull, with trading confined almost entirely to local operators, and the price kept within narrow range, generaly around again became firm, with a slight increase in the volume of business, caused by renewed reports of crop damage, and got back to 6714c, the market closing firm at that figure. Cables were firm, which fact had

more or less influence on trading. The cash demand, however, was poor and New York reported but eighteen loads for export, taken late in the day. Northwest receipts were 482 cars, compared with 673 last week and 552 a year ago. Chicago receipts were thirty-nine cars. Total primary receipts were 614,000 bu. Atlantic port clearances of wheat and flour amounted to 87,000 bu. Temperatures as low as 10 below zero were reported from some sections of the

Corn was fairly active and irregular. The ly higher, mainly in sympathy with wheat, but prices gradually gave way under persistent selling by prominent longs, liquidation of that sort also causing short selling. Later in the session the market rallied again with wheat and at the close was steady at a shade advance for the day. Receipts were 388 cars. Clearances were moderate and the cash demand was slow. May ranged from 36% to 371/2c, closing a shade

higher at 37%c. The market for oats was absolutely at a standstill. In spite of the extreme duliness, however, steadiness was shown, the strength of wheat being sufficient to maintain prices. The shipping demand was slow. May opened a shade higher, at 23%@ 24c, and remained at those figures all day, closing at 2378@24c. Hog prices were the highest of the season

Provisions were quite active and strong. and packers bought liberally on this account. Provision stocks showed no increase, and this and the strength of wheat had considerable influence on trading, the demand being good all day. At the close May pork was 171/2e higher, at \$11.15; May lard 5c higher, at \$6.05@6.071/2, and May ribs

5@71/sc higher, at \$6.071/2. Estimated receipts Saturday-Wheat, 30 cars; corn, 340 cars; oats, 230 cars; hogs, Leading futures ranged as follows: Articles. Open- High-

Why Mason Will Vote for Clark. C..cago Record.

Senator Mason of Illinois will vote to keep W. A. Clark in the Senate. Clark reeled under the whole-souled slap

which his old schoolmate administered to his shoulder, but he was chuckling at the other's surprise. The little red schoolhouse where the statesmen had received their first lesson in book learning and mischief was at Bentonsport, Ia. But that was many years ago, and Mason had never associated the famous copper king with the old school-mate, nor had Clark identified the now famous "Billy" with the thin and mischievous Willie whom he had known years be-"Of course, I will vote for you," declared
